

WE ARE LOOKING FOR VOLUNTEERS TO PARTICIPATE IN A RESEARCH STUDY

FOUNDED BY BRIGHAM AND WOMEN'S HOSPITAL
AND MASSACHUSETTS GENERAL HOSPITAL

SHOULDER PAIN?

Do you or someone you care about have a rotator cuff injury?

Partners HealthCare System is conducting a clinical research study to evaluate a new investigational device, manufactured by OrthoSpace Ltd., for arthroscopic treatment of massive rotator cuff tears in the shoulder.

TO QUALIFY, YOU MUST:

- Be 40 years of age or over and in general good health
- Experiencing persisting shoulder pain for at least four (4) months which failed non-operative treatments
- Have had an MRI within 9 months that confirms a full thickness rotator cuff tear
- Willing to comply with all post-operative evaluations and visits.

For more information, call 617-732-8891
